

Are you planning to be a STEM teacher?

Consider a *Research Experience for Preservice Teachers* in Summer 2020!

This Research Experience is for students who:

- Have earned at least a GPA of 2.7.
- Would like to pursue a career in STEM teaching.
- Are interested in making next-generation solar cells and batteries.
- Are interested in developing materials synthesis experiments for K-12 students.

Participants will receive:

- \$8,000 stipend for 10 weeks (May 26-Aug 3 2020).
- K-12 science mentoring with the Education and Outreach Center.
- Materials science research mentoring with the Neilson Research Group (Chemistry).

Application Information:

- APPLICATION DUE: **February 6, 2020.** REPT Details: <https://bit.ly/2zMvaUP>
- SEND APPLICATION TO: Prof. James Neilson (james.neilson@colostate.edu).
- Application materials: Cover Letter, 1-page resume, 1-page Statement of Purpose explaining interest in STEM teaching and science research, unofficial transcript, and contact information for a recommendation letter.
- Preference will be given to declared preservice teachers and Noyce Scholars.
